DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration on 6/5/2006 of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. A final rejection based on amended claims filed 6/5/06 proceeds.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 4, 6, 7, 11-16, 18-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Walker (US 5782374). With respect to claims 1, 11, 18, Walker discloses the following:

- Plastic tray with a planar base wall and sidewalls (Fig. 4)
- Flexible paper-based liner (Col 4, Lines 45-52) that conforms to and contacts the base and sidewalls (Fig. 4)

With respect to claims 2 & 12, Walker discloses the sidewalls forming a solid perimeter wall (Fig. 4).

Art Unit: 3727

With respect to claims 4, 14, 19, Walker discloses the liner being flexible paper board (Col 4, Lines 45-52).

With respect to claims 6, 7, 15, 16, 20, Walker discloses a rectangular base wall (Fig. 4).

With respect to claim 13, Walker discloses the liner being preformed and flexible (i.e. paper).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8-10, 17, 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walker in view of Ross Jr. (US 6639199 B1). With respect to claims 8-10, 17, 21, Walker discloses the claimed invention except for the liner including indicia. However, Ross Jr. teaches a food-holding container having indicia so as to provide an emblem to provide aesthetic value to the container. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to add indicia to the liner of Walker as taught by Ross Jr. so as to provide aesthetic value to the container.

Response to Arguments

5. Applicant's arguments filed 6/5/06 have been fully considered but they are not persuasive. Applicant argues that the liner of Walker is not preformed and conforms to and contacts the base and sidewalls of the tray. However, Walker CLEARLY shows a preformed liner D that conforms to and contacts the tray member C in Fig. 4. Also, Applicant argues that the container system of Walker is intended for animals and not for humans, wherein a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
